# AMERICAN ACADEMY of CLEAR ALIGNERS

Welcome to the American Academy of Clear Aligners!

The goal of the AACA is to promote the use of conservative orthodontic techniques for creating beautiful smiles. The new paradigm of Cosmetic Dentistry advocates the use of Clear Aligner Orthodontic Therapy. Fifteen years ago Cosmetic Dentistry was dominated and defined by porcelain laminates and crowns across the anterior dentition. That treatment modality often results in removal of significant amounts of irreplaceable tooth structure, artificial looking smiles, periodontal problems, and the need for periodic retreatment. Today, the new approach to cosmetic dentistry is easy-to-use Clear Aligner Therapy and whitening.

The AACA represents those who believe in this philosophy, promoting conservative orthodontics instead of invasive porcelain solutions.

The *Journal of the American Academy of Clear Aligners (JAACA)* is a quarterly print and digital publication which shares, promotes, and advances knowledge and expertise for enhancing cosmetic outcomes through modern orthodontic techniques.

The goals of the *JAACA* are to support and encourage proficiency in attaining excellent aesthetics with minimally invasive orthodontic techniques; to assist members who dedicate themselves to excellence in these techniques; and, to provide recognition for members who offer this treatment modality to patients. All articles are peer reviewed, and each edition features content specifically chosen to help members provide cosmetic orthodontic services with less stress, greater productively, and greater profitability. Please join us on our journey to the new age of cosmetic dentistry. Each issue of the *JAACA* reaches 1,500 readers.
